

## DISCUSSION QUESTIONS

### EPISODE 8: SEXTING, SAFETY AND CELLPHONES

1. Why do you think sexting has become so common when young people have seen so many examples of it going wrong?
2. How would you talk to your teenager about how they'd feel if this photo resurfaces when they're 20 years old?
3. Do you think your teen is aware of the legal implications regarding distributing child pornography, having to register as a sex offender, parents being charged for contributing to delinquency of a minor, Foster care risk etc.?
4. Is there a difference in the impact of boys sexting and girls sexting? If so, how might this impact your teenager and their choices?
5. How would people react to a nude/suggestive image of a boy and how might he feel about these reactions? Would this be different to an image of a girl?
